Saturday's Heroes

Having made the decision to vacate our present office during the month of February meant that things had to happen - like getting all this stuff ready to move. And stuff, we've got. Cherry and I have been quietly packing a lot of the small things into cartons and cleaning out shelves, cabinets and desks so that they would be ready for a volunteer crew to come in on Saturday and get it ready for moving - and this is easier said than done, however, our Saturday Heroes got it done! All the club banners had to come off the wall in the Board room, sorted into groups from the USA and other countries and then packed into cartons. Then the wall panels that the banners were hung on had to come down. All of the white shelving had to be disassembled, marked, bundled and taped together. The wall cabinets in the front room had to come down and the base cabinets that were fastened together had to be separated. All the wall plaques, pictures, and other stuff hanging on the walls had to come down and be packed. With the February Board meeting coming up on the 14th we had to leave the place so that they can get in and out - it looks like a bomb went off in there.

We are almost ready for Skip Rollins to pick it up on the 22nd and move us - but to where? I'm writing this at home on Sunday and we're still waiting for a call on the most likely location - the decision makers have all been away to a conference, hopefully we'll know something on Monday. One move directly to a new office sure sounds better that moving it into storage and then to new office when we get one. Hopefully we'll be able to make an announcement on Tuesday.

Now, about this past Saturday . . . . . Never seen so many people crawling around the office - some on ladders, some on their knees, some laying on their backs taking screws out, and everybody busy. Cynthia took some pix with her cell phone - hope she can print them. We had asked for help and we got it ! ! ! THANKS.
